

# Athena Accounting

Capabilities at a glance - AI-first Malaysian double-entry accounting & e-Invoicing v1.0.0-rc.1 - AthenaLab

*The AI prepares your bookkeeping; a human always reviews and approves before anything posts to your books.*

## Foundations

Chart of accounts, balanced double-entry journals, immutable posting, periods & year-end close.

## Purchases - money out

Suppliers, bills, expenses, payments (partial/final), payables ageing.

## Fixed Assets

Asset register, depreciation schedules & journals, disposal / write-off.

## Reporting

Trial Balance, General Ledger, Profit & Loss, Balance Sheet, and a plain-language dashboard.

## Enterprise

Company groups & read-only consolidation - ledgers are never mixed.

## Sales - money in

Customers, quotations, invoices, receipts (partial/final), receivables ageing.

## Banking

CSV/OFX statement import, suggested & manual matching, reconciliation tied to the ledger.

## Tax & e-Invoice

SST tax engine; MyInvois e-Invoice - sandbox-ready, live on LHDN certification.

## AI - assistive

AI Bookkeeper drafts from receipts; AI CFO explains health; Ask Athena answers from your data; forecasts.

## Platform

Roles & permissions, audit trail, subscriptions, developer API & webhooks, mobile PWA, security/monitoring/backups.
